MATIAS FALDUTI

INFORMATION SYSTEMS

WORK EXPERIENCE

Developer Ssr
BBA Autoparts | 2021 - Present

Web Application Development (.NET), focusing on the development of web pages and solutions for various requirements.

ERP (Softland) Administration, responsible for both the development of new features and the correction of processes across all areas required by the company. Additionally, I generate management reports using Report Server and Power BI to provide data-driven insights.

Administrative Tasks
Car One | December 2020 - October 2021

Administrative Consulting for Clients
- Debt regularization (Savings plans).
- Monitoring and management of delinquency portfolio.

SUMMARY

I am a university technician in programming. I would like to establish myself in a company where I can apply my experience and knowledge in the required area.

MAIN SKILLS

Software development, both desktop and web. I excel in agile resolution of technical issues, applying analytical and creative approaches. My commitment to continuous learning ensures I stay at the forefront of the latest technologies. This skillset enables me to deliver high-quality, optimized software solutions that align with current market demands.
